

Job Overview

We are seeking a skilled and detail-oriented Extrusion Operator to join our manufacturing team. The ideal candidate will be responsible for operating extrusion machinery, ensuring product quality, and maintaining efficient production processes. This role requires a strong understanding of manufacturing principles and the ability to work collaboratively in a fast-paced environment.

Responsibilities

- Operate and monitor extrusion machinery to produce high-quality products.
- Conduct quality inspections throughout the production process to ensure compliance with specifications.
- Assemble and fabricate components as needed, utilizing hand tools and machinery effectively.
- Perform routine maintenance on equipment and troubleshoot any issues that arise during production.
- Utilize measuring tools such as micrometers and calipers to verify product dimensions.
- Implement Lean manufacturing principles to enhance efficiency and reduce waste in the production process.
- Maintain a clean and organized work area within the warehouse environment.
- Collaborate with team members to achieve production goals and improve overall workflow.

Experience

- Previous experience as an Extrusion Operator or in a similar manufacturing role is preferred but not needed we will train.
- Familiarity with CNC machinery and operations is a plus.
- Proficiency in using hand tools, micrometers, and calipers for precise measurements.
- Knowledge of Lean manufacturing techniques is advantageous.
- Ability to work effectively in a team-oriented environment while adhering to safety protocols.

If you are passionate about manufacturing processes and have the necessary skills to excel as an Extrusion Operator, we encourage you to apply for this exciting opportunity.
